Jason Adams
1626 N.E. Capital Circle
Tallahassee FL, 323308

Dear Jason,

This is just to let you know how much your lettering on my "Bug" has affected my real estate business.

From the day I started driving it, I knew my money was well spent. Most every time I park it someone will remark about how good the lettering job is. I stop at the light and people are looking and smiling at my car. The great part is I know they are reading my company name and will probably remember it.

I live in Highlands County which is in south Florida. My husband and I went to the Folk Festal in north Florida for the weekend. We drove our motor home and trailed the "Bug". We parked the car outside the state park where the festival was being held. When we returned there was a note from someone on the windshield of the car asking me to help sell their home in Highlands County. (WOW) What a testimony to your work!

Just yesterday I was waiting to get a drink from our local drive thru when someone knocked on my window. He pointed to the letters on my car and asked if I worked for that company. Short story, I am helping him find a vacant lot for a new home.

Never in my wildest dreams did I expect to get the attention my company has received from this car. It has become our moving billboard for my business and well worth the money invested.

Thanks so much for the great job you did. It turned out better that I could have imagined!

Sincerely,

Kathy Godwin
Owner/Broker
